

## CLARKE COUNTY REPUBLICAN PARTY COUNTY MEETING

**Monday, March 11 at 6:00 p.m.**

**Country Inn & Suites, 236 Old Epps Bridge Road, Athens, GA 30606**

**KEVIN EPPS** is the Athens attorney who first brought to light the radical and inept nature of a Deborah Gonzalez run District Attorney's office. Many court cases later, Epps has exposed DA Gonzalez as a fraud and a danger to the safety of both Clarke and Oconee County. Had it not been for Kevin Epps and his bulldog determination to expose the truth about Gonzalez, the public might still be in the dark regarding Gonzalez's three Marsy's Law violations and a number of errantly dismissed cases under her purview.

**MICHAEL McLENDON** is a prolific researcher, investigator, and writer whose work in D.C. has given him a window into the inner workings of government. Michael brings with him a broad range of experience that has equipped him to uncover truths that have remained hidden or conveniently camouflaged. Rarely do we find this level of talent willing to voluntarily speak out. McClendon is systematically uncovering secrecy, deceit, and corruption within our local government and continues to share his findings. He sheds light on aspects of ACCgov purposefully being denied to the public.
